

# Nfuse technology - Features & Benefits

FEATURE	BENEFIT
“Occupancy Ready”	<ul style="list-style-type: none"> <li>• No costly initial set-up of the floor</li> <li>• Immediate access</li> <li>• No facility down time</li> <li>• No sealing required</li> <li>• No waxing required</li> <li>• Ready to use right from the carton</li> </ul>
Maintenance - Ease - Cost	<ul style="list-style-type: none"> <li>• Low maintenance cost (damp mop or auto scrubber)</li> <li>• No costly stripping, sealing or waxing required</li> <li>• No wax build up</li> <li>• No tracking of floor finishes</li> <li>• No VOC emissions</li> <li>• No toxic dumping of floor strippers &amp; waxes</li> </ul>
Stain resistance	<ul style="list-style-type: none"> <li>• Improved resistance to most chemicals and staining</li> <li>• Spills are easily removed</li> </ul>
Low luster appearance	<ul style="list-style-type: none"> <li>• Softer reflective values</li> <li>• Unlikely to show wear patterns</li> </ul>
Durable performance	<ul style="list-style-type: none"> <li>• Excellent wear resistance</li> <li>• Ideally suited for high traffic areas</li> </ul>
Superior indentation	<ul style="list-style-type: none"> <li>• Will not show indentation marks</li> </ul>
Engineered to withstand rolling loads	<ul style="list-style-type: none"> <li>• Less surface damage due to rolling loads</li> </ul>
Nonporous Exceeds ASTM G21 for: mold, mildew and bacteria	<ul style="list-style-type: none"> <li>• Excellent hygiene</li> </ul>
Meets or exceeds important quality & environmental standards for floor covering	<ul style="list-style-type: none"> <li>• Declare “Red list FREE”</li> <li>• LEED v4 contributor</li> <li>• FloorScore certified (SCS-FS-01492)</li> <li>• ISO 9001 certified</li> <li>• ISO 14001 certified</li> </ul>
Phthalate FREE	<ul style="list-style-type: none"> <li>• Phthalate FREE</li> </ul>
