

AmericanBiltrite

American Biltrite provides its customers with information for the following regulations. The products covered by these regulations are listed on the annexed page.

Object:
Persistent Organic Pollutants (POPs) Regulation

This statement certifies that all products made by American Biltrite, are free of **POPs (Persistent Organic Pollutants)**.

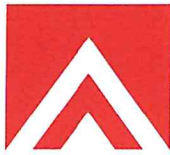

This statement certifies that the listed products are free of any chemical on the POPs list table of substances as listed by European Chemicals Agency (ECHA), as of **ECHA 2024/10/31** and previous updates, under the provisions of the Stockholm Convention.

Based on internal manufacturing standards and external information provided by our suppliers, American Biltrite does not intentionally add in the manufacture of the above product any chemical on the POPs List table of Substances.

Date: November 1, 2024

Victor Caldas, Chemist
Vice President R&D/Technical Services

The certification supplied by American Biltrite is based on information furnished to us at the time of manufacture by our suppliers. We believe this information to be accurate. We are not responsible to the user for any consequential, incidental, or special damages resulting from product use or processing.
